

Contents of volume 63 2000

- Alexander MP → Stuss DT
 Allport A → Wylie G
 Azuma R → Monsell S
- Bruce V → Morrison DJ
 Brysbaert M → De Moor W
 Burgess PW: Strategy application disorder: the role of the frontal lobes in human multitasking 279
 Burton AM → Morrison DJ
- Carlan M → Stablum F
- De Moor W, Brysbaert M: Neighborhood-frequency effects when primes and targets are of different lengths 159
 Di Lollo V → Zuvic SM
 Dunn JC: Model complexity: The fit to random data reconsidered 174
- Eriksson S: Depth motion sensitivity functions 48
- Farrell S → Lewandowsky S
 Fox Tree JE, Meijer PJA: Untrained speakers' use of prosody in syntactic disambiguation and listeners' interpretations 1
- Geuze RH → Volman MJM
 Guerrini C → Stablum F
- Hanes DP → Schall JD
 Heath RA: The Ornstein-Uhlenbeck model for decision time in cognitive tasks: An example of control of nonlinear network dynamics 183
 Hoffmann J → Koch I
- Jescheniak JD: The cataphoric use of spoken stress in narratives 14
 Kinder A: The knowledge acquired during artificial grammar learning: Testing the predictions of two connectionist models 95
- Koch I, Hoffmann J: Patterns, chunks, and hierarchies in serial reaction-time tasks 22
- Lewandowsky S, Farrell S: A reintegration account of the effects of speech rate, lexicality, and word frequency in immediate serial recall 163
 Logan GD: Executive processing 211
 Lowe C → Rabbitt P
- Meijer PJA → Fox Tree JE
 Meiran N: Modeling cognitive control in task-switching 234
 Meulenbroek RGJ → Schillings JJ
 Mogentale C → Stablum F
 Monsell S, Yeung N, Azuma R: Reconfiguration of task-set: Is it easier to switch to the weaker task? 250
 Morrison DJ, Bruce V, Burton AM: Covert face recognition in neurologically intact participants 83
- Neumann O → Steglich C
 Nicoletti R → Rubichi S
- Proctor RW → Roswarski TE
- Rabbitt P, Lowe C: Patterns of cognitive ageing 308
 Repp BH: Compensation for subliminal timing perturbations in perceptual-motor synchronization 106
 Roswarski TE, Proctor RW: Auditory stimulus-response compatibility: Is there a contribution of stimulus-hand correspondence? 148
- Rubichi S, Nicoletti R, Umiltà C, Zorzi M: Response strategies and the Simon effect 129
- Schall JD, Hanes DP, Taylor TL: Neural control of behavior: countermanding eye movements 299
 Schillings JJ, Thomassen AJWM, Meulenbroek RGJ: Comfort constrains graphic workspace: Test results of a 3D forearm model 70
 Schulze H-H → Semjen A
 Semjen A, Schulze H-H, Vorberg D: Timing precision in continuation and synchronization tapping 137
 Stablum F, Umiltà C, Mogentale C, Carlan M, Guerrini C: Rehabilitation of executive deficits in closed head injury and anterior communicating artery aneurysm patients 265
 Steglich C, Neumann O: Temporal, but not spatial, context modulates a masked prime's effect on temporal order judgment, but not on response latency 36
 Stuss DT, Alexander MP: Executive functions and the frontal lobes: a conceptual view 289
- Taylor TL → Schall JD
 Thomassen AJWM → Schillings JJ
- Umiltà C → Rubichi S
 Umiltà C → Stablum F
- Vandierendonck A: Is judgment of random time intervals biased and capacity-limited? 199
 Visser TAW → Zuvic SM
 Volman MJM, Geuze RH: Temporal stability of rhythmic tapping "on" and "off the beat": A developmental study 62
 Vorberg D → Semjen A

IV

Wylie G, Allport A: Task switching
and the measurement of "switch
costs" 212

Yeung N → Monsell S

Zorzi M → Rubichi S

Zuvic SM, Visser TAW, Di Lollo V:
Direct estimates of processing
delays in the attentional blink
192
